April Vacation Schedule + Details

The Bubbler VR: Streaming Innovation Program

Lead Advisor: **Matt**
10AM-3PM, open to 10th & 11th graders

Program Description: Welcome to our unique Streaming Innovation Program, a perfect place for enthusiasts to dive into the world of live streaming. In this program, you'll get to build your own gaming PC, learning about the hardware and software that power today's top streamers. We'll guide you through the ins and outs of popular streaming platforms like OBS/Streamlabs, YouTube, and Twitch, helping you to create a personal streaming profile that reflects your unique style and interests. Our hands-on workshops will teach you essential skills in content creation, video editing, and effective online communication, empowering you to craft engaging and professional-looking streams. You'll also discover the art of branding, public relations, and marketing, learning how to grow your audience, create strategic partnerships, and make a meaningful impact in the streaming community. This program is more than just learning; it's about expressing your creativity, learning about congruent career paths such as marketing, IT, and public relations, and connecting with others who share your passion for streaming and content creation. We can't wait for you to join us and start your journey as a budding streaming star!

The Steel Yard: Ceramics / The Steel Yard: Jewelry/Metalsmithing

Lead Advisors: Maria (Ceramics), Steven (Jewelry)
10AM-3PM, open to 10th & 11th graders

Program Description: The Steel Yard proposes to provide creative educational opportunities in Jewelry/Metalsmithing & Ceramics for students between the ages of 13 and 18, enrolled in programs at Onward We Learn. The programs aim to teach industrial arts such as jewelry fabrication and metalsmithing in an engaging and creative curriculum. Courses offered include a Jewelry Making Course and a Ceramics Course, both designed to expose students to the ins and outs of metal fabrication or ceramics with a goal of learning more about pursuing a career in art & design.

RISD Project Open Door: Fashion Design

Lead Advisors: Eric, Jimmy 12PM-4PM, open to 10th & 11th graders
Program Description: Rhode Island School of Design Project Open Door (POD) is a college-access and portfolio development program offering free, high-quality art and design programming to creative underrepresented teens from local high schools. POD's programs introduce teens to new ways of creating and thinking about art and design while providing exposure and access to various creative academic and career pursuits. The programs aim to develop a lifelong passion for the arts and increase the possibility of students pursuing higher education programs and creative career paths. **Intro to Fashion Design Workshop:** Guided by teaching artist Dorian Epps, teens will explore foundational elements of fashion design, practice sewing and assembly skills, and develop their personal style. No previous experience is necessary, just an interest in fashion + design!

Save the Bay: Private Seal Tour & Aquarium Visit

Lead Advisors: Faith, Maria

10AM-3PM, open to 10th and 11th graders

Program Description: Come join us this April vacation on a private seal tour in Newport with Save the Bay, where students will witness these ocean animals in their natural habitat, followed by a visit at the aquarium. In the afternoon, students will explore the rich history of tennis at the International Tennis Hall of Fame and then have lunch to end the day.
